

Justice Demands that the Government:

Expose and Expunge!

The Partnership for Civil Justice Fund (PCJF) has launched the national 'Expose and Expunge' Campaign, calling on the White House and Congress to identify and expunge from all government databases the massive accumulation of information collected on millions of people in the United States who have broken no law.

The Expose and Expunge Campaign is supported by a broad list of prominent individuals, including: Noam Chomsky; Ramsey Clark, former U.S. Attorney General; Cynthia McKinney; Jennifer Harbury, Human Rights Lawyer; Cindy Sheehan; Heidi Boghosian, Executive Director, National Lawyers Guild; and others.

The Bush White House permitted the FBI, the National Security Agency, the CIA, Pentagon and other law-enforcement and military agencies to conduct unprecedented data collection against the people. Thousands have been targeted for their political beliefs and activities, religious beliefs, race and ethnicity, or because they inadvertently fell into one of the many broad categories used to justify and execute the sweeping data collection program.

We call on the Obama Administration and Congress to order a complete audit of law-enforcement, fusion center, and military data and record-keeping systems, to disclose to the public the scope and parameters of data-collection on people and organizations in the United States, and to order expungement of this material and a halt to ongoing illegal domestic spying operations. The PCJF is undertaking a People's Investigation and Audit using public records demands and other legal means to compel disclosure and expungement.

Participate in the 'Expose and Expunge' Campaign by signing the online petition at www.JusticeOnline.org and circulating a copy of the petition among friends, family, neighbors and co-workers.

YES, Expose and Expunge!

We the undersigned call on the Obama Administration and Congress to immediately begin identifying and expunging from all government databases the massive accumulation of information collected by the Bush administration's illegal domestic spying operations on millions of people who broke no law.
